# New normal education model under new market conditions

- Economic crisis; higher student precarity; higher uncertainty;
  - New forms of internationalisation; new forms of experiential learning
- Education closer to companies
- Education : from blended to closer tutoring of students
- much more demanding for students and professors

# Most relevant competencies

- Faculty
  - Adadptation
  - Ability to support students and companies
  - Long range projects (research)
  - Evolution of the ways to define workload
- Student
  - Resilience
  - Commitment
  - Self Exigence
  - Evolution of the notion of excellence for our students
